Duwakot-3, Bhaktapur

SKILLS

Communication

Basic Management

Hardware and Software

C, C++, HTML, CSS, Basic C#

Python with AI (Trained)

java (Trained)

PROJECTS INVOLVED

Movie Recommended System

A movie recommendation system suggests films based on user ratings and preferences, analyzing data to generate personalized recommendations that help users discover new movies they will likely enjoy.

<https://github.com/Sa2ff/movie-recommended>

Object Detection

<https://github.com/Sa2ff/object-detection-t>

using a pre-trained YOLO model enables efficient and effective object detection in real time, making it a powerful tool for various applications involving visual data.

LANGUAGES

Nepali

Hindi

English

PROFILE
